# Summary of Manchester Skull Base Course Feedback 2017

Lectures

1 = poor; 5 = excellent

Course Organisation

Written Feedback

Supervisors were excellent

Specimens were just perfect

Multi-disciplinary nature of the course was fantastic

I liked the full exposure to all skull base approaches and that we got lots of dissection time

Ratio of participants to faculty was great

Would strongly encourage all junior and senior skull base staff to do it

Lab demonstrations were excellent

Very good enthusiastic, individual supervision

Would highly recommend. Excellent course

Excellent course

I learnt a lot of things. Thank you very much

Very interesting and useful. Location excellent
