

Sixth Manchester Skull Base Surgical Dissection Course

7 October to 11 October 2024

Manchester Surgical Skills Laboratory, UK

Day 1 and Day 2

Approaches To The Middle And Posterior Fossa

Day 1

09:00 Introduction

09:15 Lecture: Selecting the right approach
to the lateral skull base

Simon Freeman

09:30 Lecture: Retrosigmoid approach

Andrew King

09:45 Lecture: Translabyrinthine and retrolabyrinthine
approach

Georgios Kontorinis

10:00 Coffee

10:15 Dissection: Retrosigmoid approach

Side 1 (60 minutes)

11:15 Dissection: IAC drilling

Side 1 (75 minutes)

12:30 Lunch

13:30 Dissection: Retrolabyrinthine approach

Side 2 (90 minutes)

15:00 Dissection: Translabyrinthine approach

Side 2 (150 minutes)

17:30 Finish

19:30 Conference Dinner (King Street Townhouse)

Day 2

09:00	Dissection: ABI insertion	Side 2	(60 minutes)
10:00	Lecture: Transcochlear / transotic approach	Simon Lloyd	
10:15	Dissection: Transcochlear / transotic approach	Side 2	(90 minutes)
10:45	Coffee		
11:00	Dissection: Transcochlear / transotic approach	Side 2	
12:00	Lunch		
13:00	Lecture: Middle fossa approach	Simon Lloyd	
13:15	Dissection: Middle fossa approach	Side 1	(75 minutes)
14:30	Lecture: Combined transtentorial and Kawase approach	Charlotte Hammerbeck-Ward	
14:45	Dissection: Combined transtentorial and Kawase approach	Side 1	(90 minutes)
16:15	Lecture: Far lateral approach	Evangelos Drosos	
16:30	Dissection: Far lateral approach	Side 2	(90 minutes)
18:00	Finish		

Day 3**Open Approaches To The Anterior Skull Base And Orbit**

09:00 Lecture: Selecting the right approach to the anterior skull base and orbit

09:15 Lecture: Pterional craniotomy Jane Halliday

09:30 Dissection: Pterional craniotomy Side 1 (90 minutes)

11:00 Coffee

11:15 Lecture: Optic canal decompression and anterior clinoidectomy Scott Rutherford

11:30 Dissection: Optic canal decompression and anterior clinoidectomy Side 1 (75 minutes)

12:45 Lunch

13:45 Lecture: Orbitozygomatic craniotomy and eyebrow craniotomy Omar Pathmanaban

14:00 Dissection: Orbitozygomatic craniotomy Side 2 (120 minutes)

16:00 Dissection: Eyebrow craniotomy Side 1 (105 minutes)

17:45 Finish

Day 4**Endoscopic Approaches To The Anterior Skull Base**

08:00	Lecture: Open vs endoscopic approaches to the anterior skull base	Daniela Statsna
08:15	Lecture: Hadad flap, sella surgery and transcribriform approach	Daniela Statsna
08:30	Dissections: Hadad flap	(60 minutes)
09:30	Dissection: Sella surgery	(90 minutes)
11:00	Coffee	
11:15	Dissection: Transcribriform approach	(105 minutes)
13:00	Lunch	
14:00	Lecture: Transclival, infratemporal and transmaxillary approaches	Raj Bhalla
14:15	Dissection: Trans-clival approach	(90 minutes)
15:45	Dissection: Infratemporal fossa and transmaxillary approaches	(105 minutes)
17:30	Dissection: Carotid artery dissection	(90 minutes)
19:00	Finish	

Day 5**Infratemporal Fossa and Transfacial Approaches**

08:00	Lecture: Infratemporal fossa approaches	Simon Freeman
08:15	Dissection: Infratemporal fossa approaches A, B, C	Side 2 (180 minutes)
09:45	Coffee	
10:00	Dissection: Infratemporal fossa approaches A, B, C continued	Side 2
11:30	Lecture: Transfacial approaches	Nav Mani
11:45	Dissection: Transfacial approaches	(195 minutes)
13:15	Lunch	
14:15	Dissection: Transfacial approaches	
16:00	Finish
